

## Global Rating Score: Clinical interview

*This score relates to an **assessor's professional judgement** of the **overall performance** of the applicant at a particular station. A score of 1 in this domain should be discussed between both assessors at that station and the convener of the selection centre, to decide whether performance was so unsatisfactory that the applicant should be vetoed on this performance alone.*

1	Performance <b>below standard</b> in all respects or significant action demonstrating dangerous / worrying behaviour e.g. unsafe management of patient, unable to prioritise tasks, exceptionally poor communication skills, demonstrated inaccurate or exceptionally poor knowledge of patients suspected problems
2	
3	Performance <b>borderline</b> e.g. limited knowledge of differential diagnosis, limited management of subsequent deterioration, hesitancy in communication with team members, limited awareness of tasks required
4	
5	Performance <b>typical</b> e.g. accurate assessment of initial differential diagnosis, needed prompting in some aspects of management, some hesitancy when leading team members but appropriate communication in general
6	
7	Performance <b>above standard in most respects</b> e.g. good knowledge of clinical scenario, limited prompting or probing required, prioritised tasks well, demonstrated empathy and sensitivity to the patient, good communication with team members
8	
9	Performance <b>above standard in every respect</b> e.g. exceptional knowledge and management of patient throughout the scenario with no prompting required, demonstrated exceptional team leadership and communication skills, demonstrated sensitivity and empathy to the patient throughout
10
